

The Director of Inazgar (Mahamane Lawali Adam)

Mr Mark Owen Director of School Gillespie

After four years of twinning between your school and the school that I have the honour to head, I promised to write you this letter to thank you all. The year 2011 - 2012 approaches its end and thanks to the efforts that your school provided, we overcame the difficulties for the moment. I wish to reiterate that the support that your school makes to the school especially Inazgar and community schools in general have had a positive impact for the success of our school.

Therefore, I ask you to continue to support our school in order to save the children who attend. In educational terms, the level of students has improved further thanks to the relocation of the solar panel that allows them to study at night. The school staff, students and parents ask you to convey their greetings to the staff, students and everyone in your school community.

Given the tireless efforts you have never ceased to provide for success in our school, our school would like to issue your school with a declaration of great satisfaction. I would not like to end this note without prompting you to attend a high school party to be held in Danloussèye a community school to discover the benefits of community schools. The School Fair is scheduled for June 11, 2012. An opportunity not to be missed to see Touareg culture and the various works of the students.

Until next time

Inazgar le 15 Mai 2012
