

# E-Safety at Gillespie

welcome!

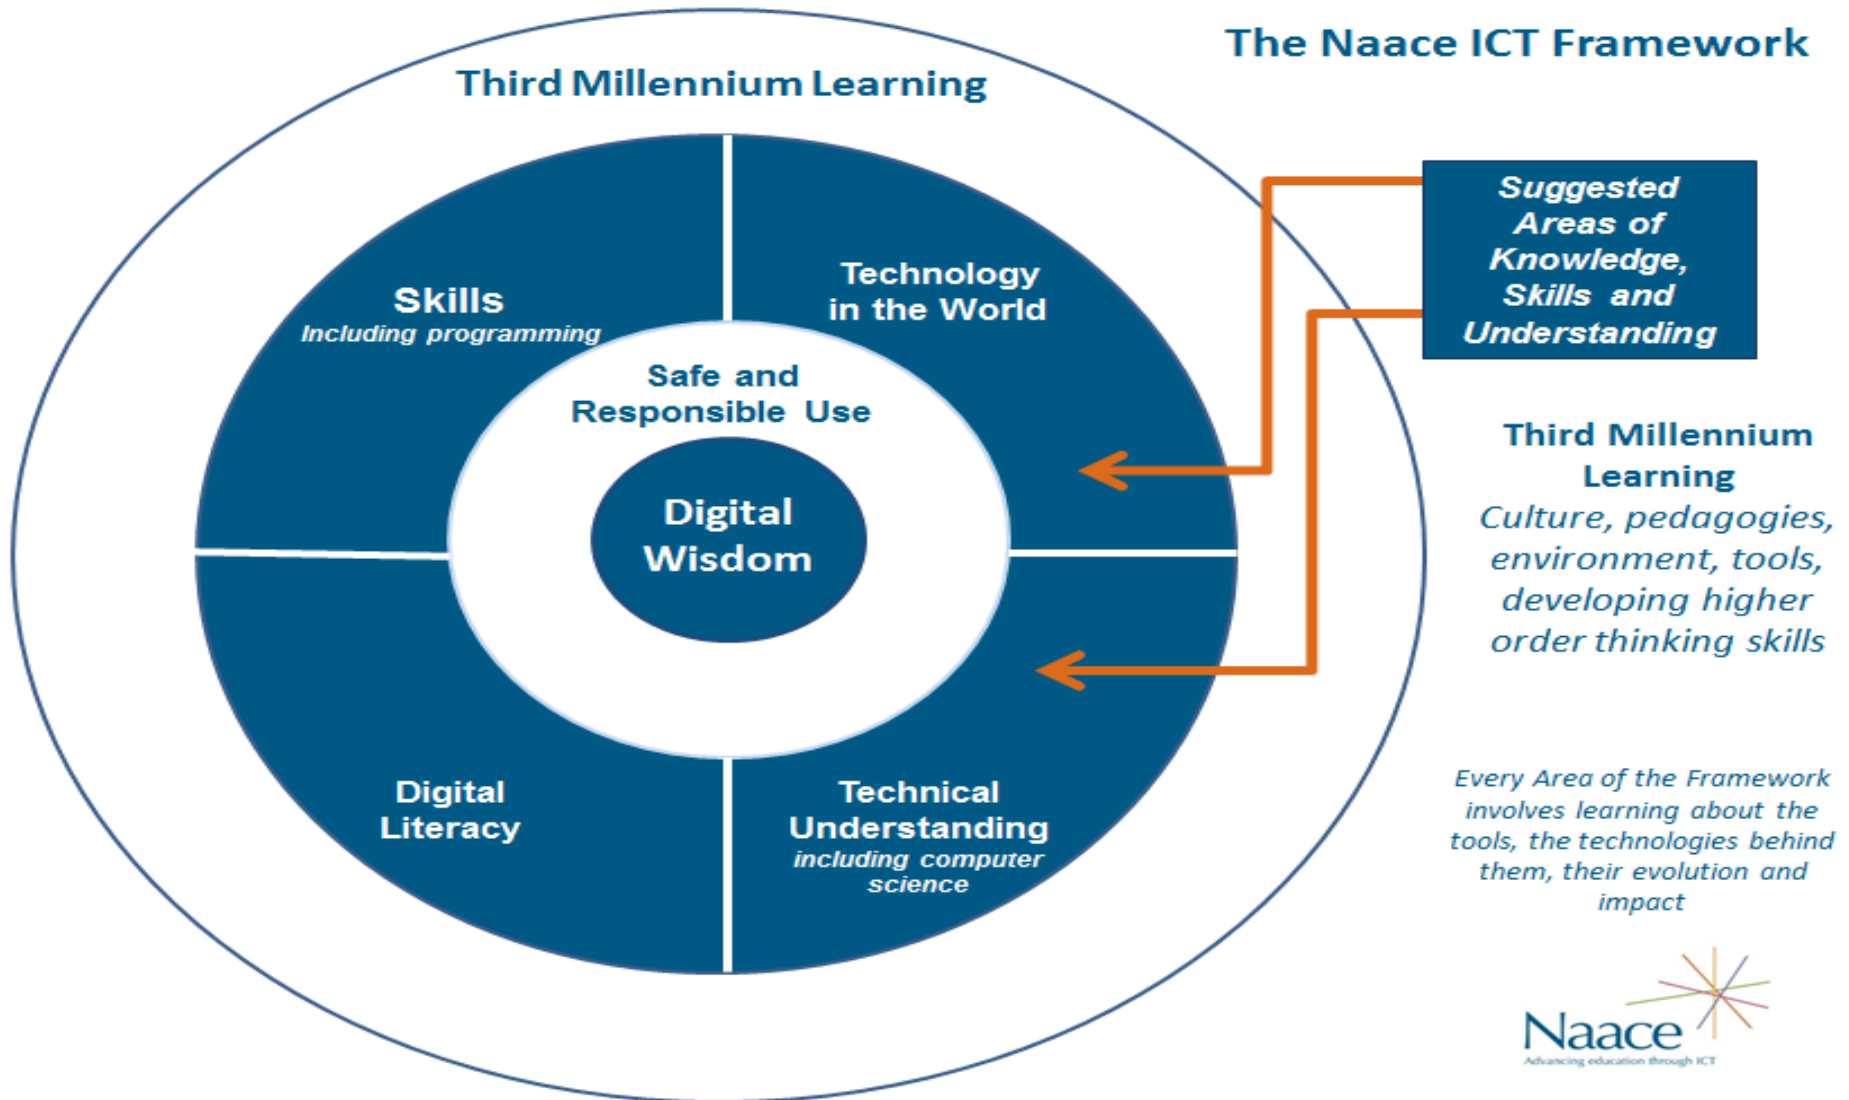

## Aims of the session

- ❖ Look at how children are using technology and how it fits into the Gillespie curriculum
- ❖ To find out what e-safety is and what issues we face
- ❖ To discover what Gillespie does to combat e-safety issues
- ❖ To find out what the children think

# What is ICT?

ICT (Information and Communication Technology) is...

**A key skill  
for life**

**Used to gather  
a wide and  
flexible range  
of information**

**Accessed  
anywhere  
anytime**

**Motivational  
and fun**

**Easy to  
communicate  
ideas and  
learning**

**Raise  
standards**

*Why is ICT important?*

# How we use these technologies

Parents / Carers/teachers??

➤ e-mail

➤ Shopping

➤ Booking holidays

➤ Research

➤ Downloads

Young people !!

➤ Music

➤ Games

➤ Chat

➤ Instant Messaging IM

➤ Blogs

➤ uploading content

Are you one of the 28% of parents who use the internet and describe themselves as beginners?

Only 7% of children describe themselves as beginners

93% of all 5-15 year olds used the internet  
in 2013.

This breaks down by age as: 82%, 5-7 year  
olds and 96% 8-11 year olds and 99%  
12-15 year olds!

They are digital experts, we are digital  
beginners!

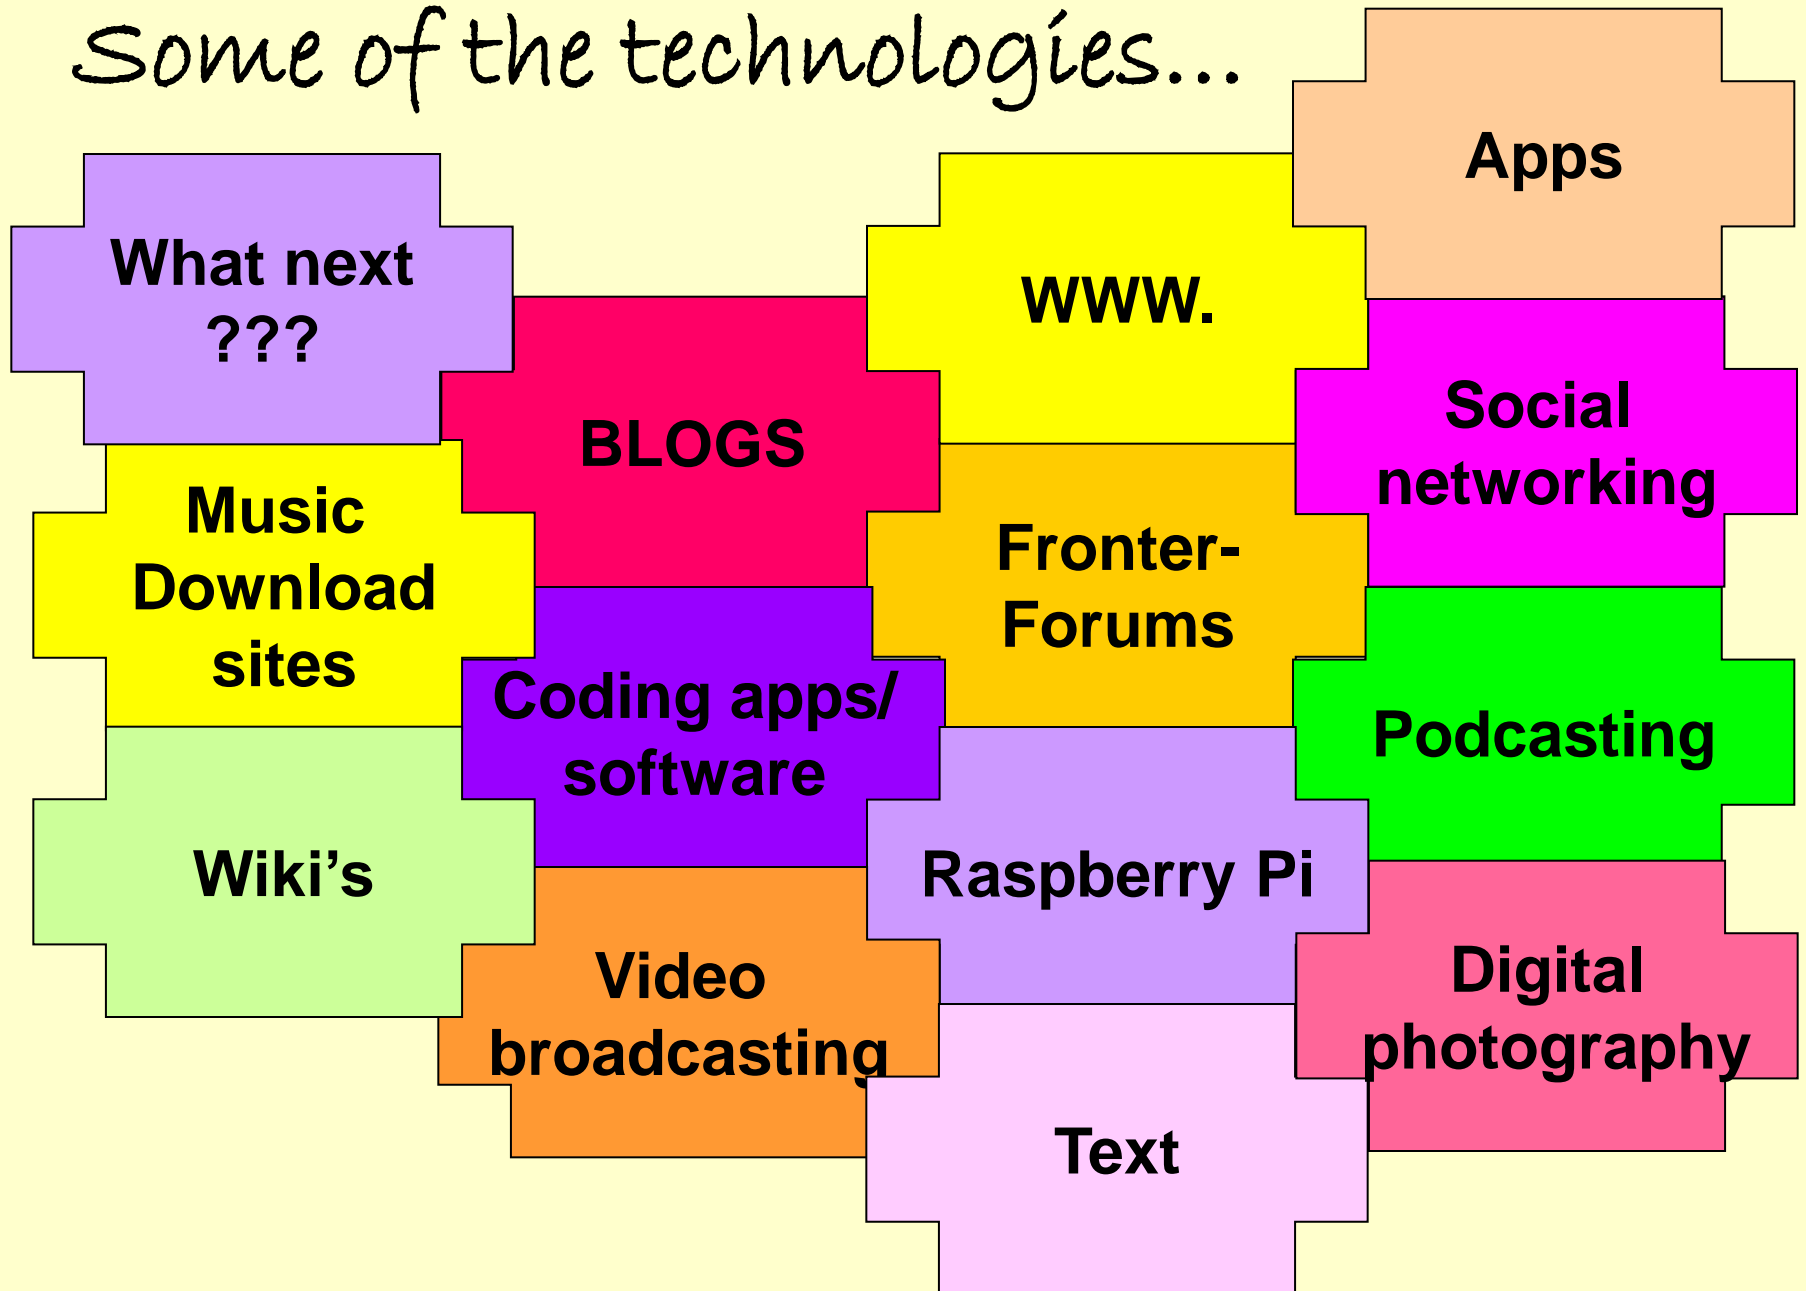

# A test....

Can you work out these rules for safe surfing devised by pupils?

- uv d ryt 2 feel safe ll d tym, includN wen uZN ICT or yr mob ph yolo
- Kip yr PRSNL dts pvt. Don't shO pix ov u. F? or kin w/o chekin 1<sup>st</sup> w an XXX

# Some of the technologies...

What exactly is eSafety?

eSafety is:

Teaching our children the safe  
and responsible use of ALL  
technology

# eSafety - Summing up the risks

- Content - Internet use: Inappropriate/unreliable/plagiarism i.e. safety of children's minds
- Commerce - scams, phishing, downloads which steal information - even on 'educational websites'
- Contact - via interactive technologies - DS multiplayer games, Fronter
- Culture - blogging, social networking ...cyber-bullying,

Why is education so important in this area?

1. 93% of all 5-15 year olds used the internet in 2013

2. Technology has become an integral part of education

Safeguarding our pupils is key:

Ofsted says : A good school 'integrates issues about safety and safeguarding into the curriculum so that pupils have a strong understanding of how to keep themselves safe.'

# Gillespie's approach to eSafety

- Policy, practise and curriculum
- AUP (Acceptable Use Policy)
- Anti-bullying week
- SID (Safer Internet Day)
- Hardware/software

# Gillespie Primary School FS/KS1 ICT Acceptable Use Policy

Think before you click!!

Are you being.....

**S**

afe

I will only use the internet and email with an adult.

**A**

lways

click on icons and links when I know they are safe or when my teacher has asked me to.

**F**

riendly

I will only send friendly and polite messages and will only send them to people I know and trust.

**E**

everytime

I see something I don't like on screen, I will always tell an adult straight away.

Year \_\_\_\_\_

We agree to follow these rules, signed.....

# Gillespie Primary School

## KS2 ICT Acceptable Use Policy

When using the computers in school I will.....

- follow the SMART rules
- always follow my teacher's instructions
- only visit websites which my teacher has recommended
- always keep my passwords and personal details a secret
- make sure all messages/blogs/ comments I make and send are respectful
- only email people I know or those approved by a responsible adult
- never pass on anyone's email address or details without their permission
- tell a responsible adult straight away if I see anything I am unhappy with or receive a message I do not like

I understand these rules are there to help keep me safe. I agree to follow them and understand what the consequences will be if I do not.

Year \_\_\_\_ agree to these rules.

Signed.....

# SMART rules

**SAFE** - Keep safe by being careful not to give out personal information - including full name and email address - to people who you don't trust online.

**MEETING** - Meeting up with someone you have only been in touch with online can be dangerous. Only do so with your parent's/carer's permission and even then only when they can be present.

**ACCEPTING** - Accepting e-mails, IM messages or opening files from people you don't know can be dangerous - they may contain viruses or nasty messages!

**RELIABLE** - Someone online may be lying about who they are, and information you find on the internet may not be true. Check information and advice on other websites, in books or ask someone who may know.

**TELL** - Tell your parent/carer or teacher if someone or something makes you feel uncomfortable or worried, or you or someone you know is being cyberbullied.

# Anti-bullying week and Safer Internet day 2014

Over to the children...

# Ideas for home esafety

- 😊 Practical principles  
Talk with, NOT at your children.  
Agree family guidelines and rules.  
Discuss regularly online safety.
- 😊 Infrastructure  
Virus and firewall software up to-date,  
Browser 'safe search' enabled.
- 😊 Education  
Learn together about new technologies and enjoy!  
Reflect together about new technologies, pros and cons
- 😊 Systems  
Keep webcams in family rooms  
Monitor time spent on the internet  
View the 'History' or purchase filtering software.  
Have proportionate responses to problems.

Your child will not tell you about a problem if they feel their access to the technologies will be restricted.

## and finally remember

'..the risks do not merit a moral panic, and nor do they warrant seriously restricting children's internet use because this would deny them the many benefits of the internet. Indeed, there are real costs to lacking internet access or sufficient skills to use it.'

'However, the risks are nonetheless widespread, they are experienced by many children as worrying or problematic, and they do warrant serious intervention by government, educators, industry and parents.'
